EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the specification:

The paragraph presented in the preliminary amendment which was presented on July 9, 2003 and was placed prior to paragraph number 1 of the specification has been amended as follows:

This Application is a divisional of U.S. Application Serial Number 09/636,816 filed August 10, 2000, now U.S. Patent No. 6,620,475, and claims the benefit, pursuant to 35 USC § 120 of that application.

2. The following is an examiner's statement of reasons for allowance: None of the prior art of record taught the incorporation of a single material fiber layer by winding the same over a liner followed by the winding of plural hybrid fiber layers over the single fiber layer wherein the single material fiber layer was disposed between the liner and the hybrid layers in the manufacture of a wound fiber reinforced plastic article. While the reference to Japanese Patent '413 provided on inner glass layer onto which one wound the hybrid layers of glass and carbon fibers, the layer of glass was not provided upon a liner and the article being manufactured was a drive shaft. As such, the artisan would not have been led to include a liner onto which one wound (as such was not common in

Art Unit: 1733

the art of drive shafts). Additionally while it was known per se as admitted by applicant's admitted prior art to incorporate a hybrid layer on a liner, there is no reason to believe that one skilled in the art would have looked to the drive shaft art and incorporated the glass fiber layer on the interior of the wound assembly adjacent the liner of the admitted prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jeff H. Aftergut whose telephone number is 571-272-1212. The examiner can normally be reached on Monday-Friday 7:15-345 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Richard Crispino can be reached on 571-272-1226. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
